Update Your Smart Wheels

Update Your Smart Wheels

As a technology product, one of the many benefits of the Smart Wheels are the software programming enhancements designed to further improve the usability and performance of the Smart Wheels.

Please find the the Smart Wheels Software Update Application as well as the Update instructions available for download below.

Click buttons below to download:

Application Installation / User Guide Smart Wheels Update Application

2. Extract the .zip file (This will contain 2 folders, one with the application files, the other with the most current firmware).

Name	Date modified	Type	Size
 Smart Wheels Update Program.zip	6/08/2019 10:32 AM	Compressed (zipp...	19,203 KB

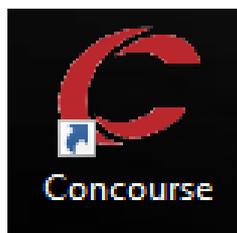

Name	Date modified	Type	Size
 Concourse Firmware Update Application	6/08/2019 10:31 AM	File folder	
 Release 2.3	6/08/2019 10:31 AM	File folder	
 Smart Wheels Update Program.zip	6/08/2019 10:32 AM	Compressed (zipp...	19,203 KB

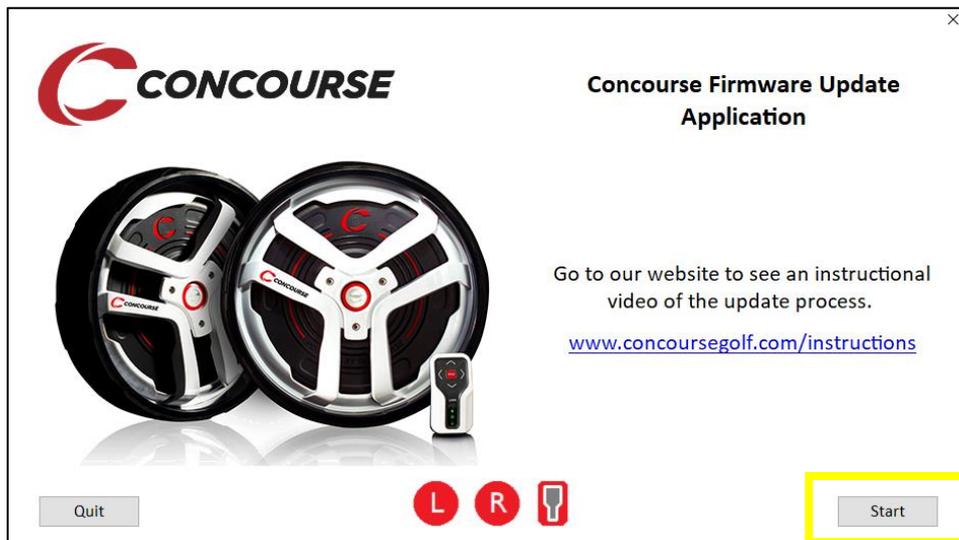

3. Open 'Concourse Firmware Update Application' folder and double-click the "ConcourseInstaller.bat" file to begin the install and follow the prompts. This will install the files required to run the application which includes Microsoft Visual C++ which is required to run the Concourse Application.

Name	Date modified	Type	Size
 ConcourseDriver	6/08/2019 10:31 AM	File folder	
 Setup	6/08/2019 10:31 AM	File folder	
 ConcourseInstaller.bat	2/08/2019 4:58 PM	Windows Batch File	1 KB

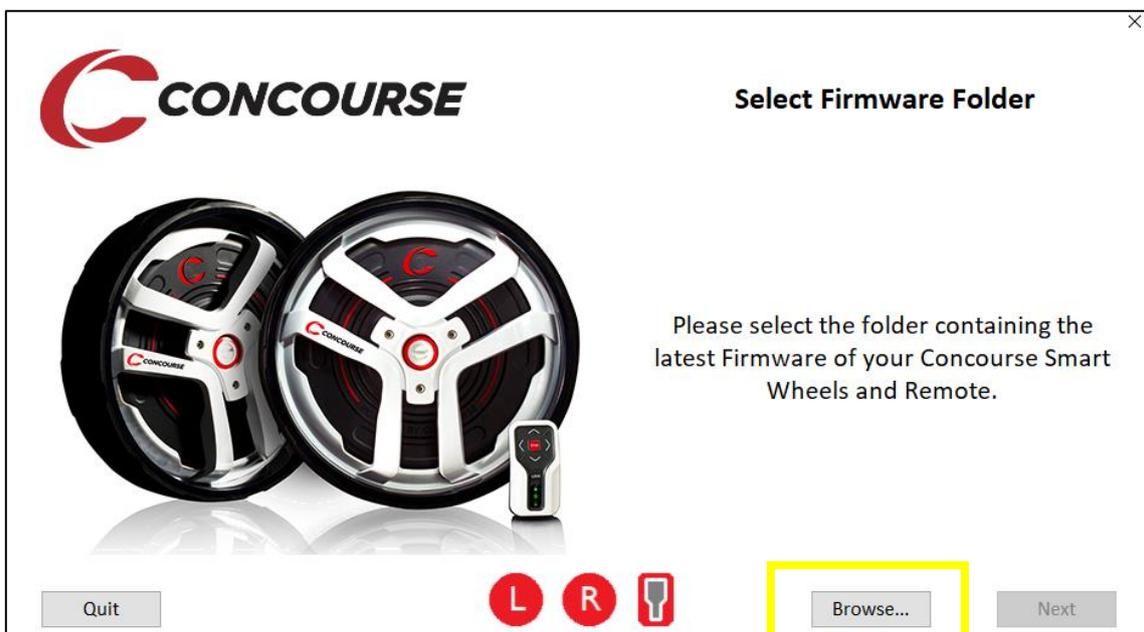

4. Once completed, you will see a Concourse icon on your desktop. Double-click to run the application

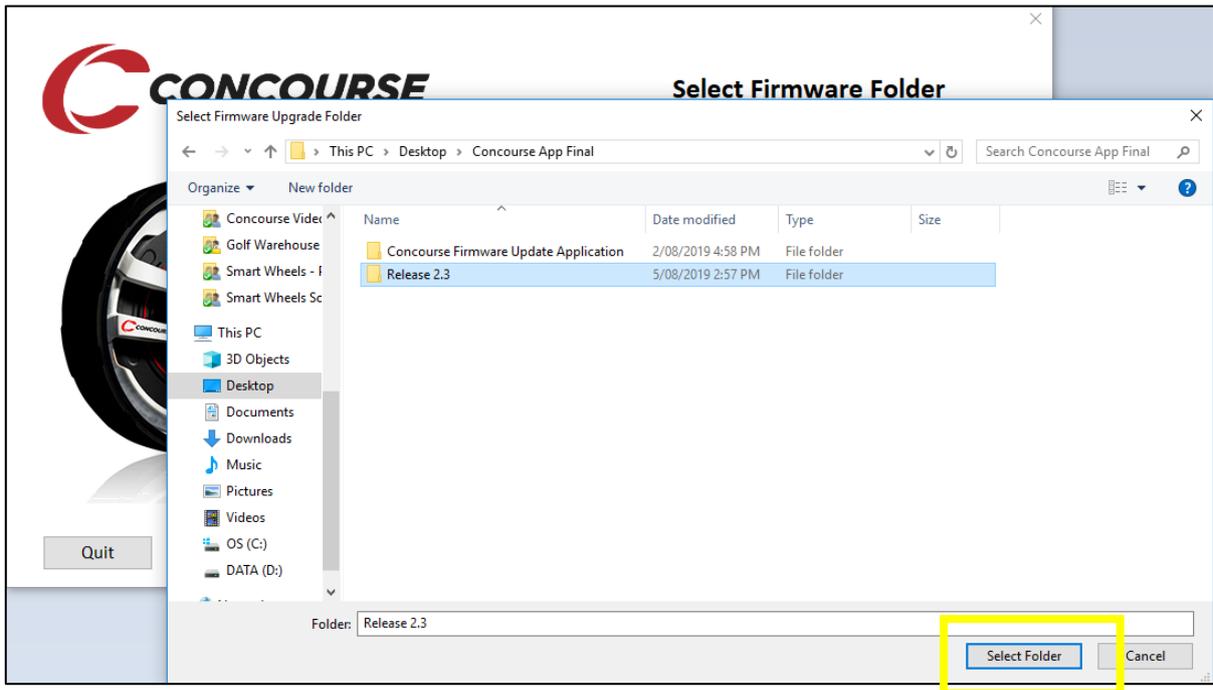

5. Click start to begin the upgrade process.

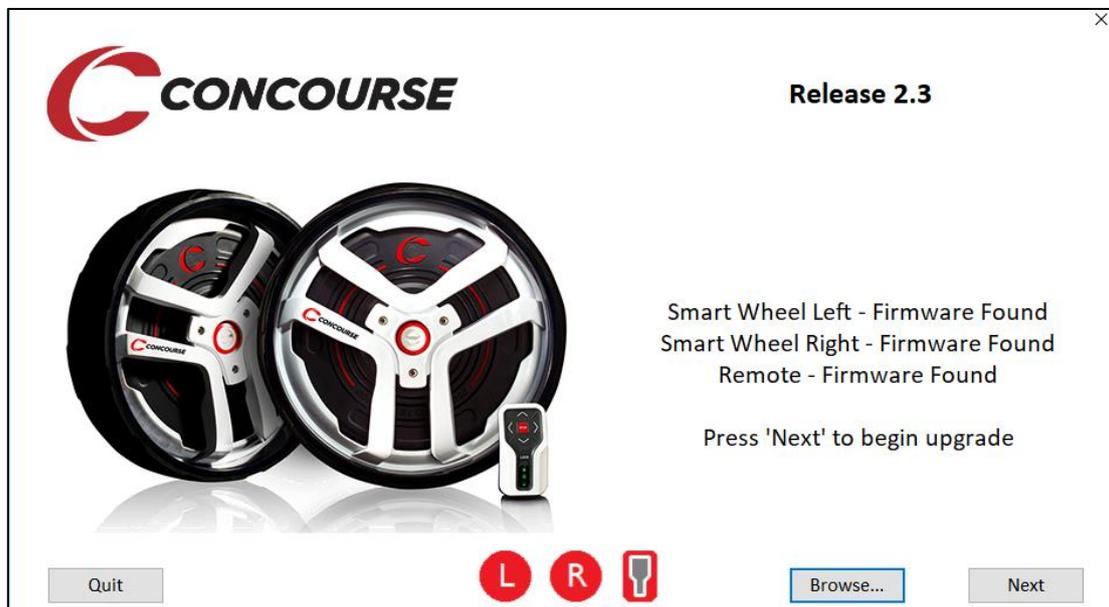

6. Click 'Browse' and select the folder which contains the firmware files. Once selected, click the 'Select Folder' button.

7. If the program successfully identifies the firmware files you will see following screen. Click 'Next' and follow the prompts.

8. When new updates become available, all you have to do is download the latest update files from the website, extract the folder and select it when using the app

Update Your Smart Wheels
